

# Special Project Ideas

Along with the written report, you will need to do a special project. You could choose one of the following projects (these are just suggestions), or make up your own. It's your time to be creative!

1. Visitor Guide: Make a travel brochure of interesting places in your country worth visiting.
2. Create a complete menu for a typical restaurant in your country.
3. Maps, maps, and more maps: Create a relief map, a resource map with attached figures and a large political map. (Salt dough maps are fine, too.)
4. Make a diorama or another 3-D representation of a place of interest in your country
5. Write a biography about a famous person from your country.
6. Create a play about your country and something important from history. (Only one event not the entire history of your country; for example, a country's independent movement)
7. Prepare and serve national food. Write down the recipe so if it is good, everyone can make it at home!
8. Devise a test for people who read your report. Your test must be at least two pages and include at least 10 different questions.
9. Make two picture postcards ( MUST BE COLORED) from your country and on the back write to friends or family members and tell them what you have been doing on a visit to your country.
10. Using the data you have collected, make up 10 math problems about your country.
11. Write a song or poem that describes your country.
12. Make an Art Gallery: Original drawings or paintings that tell the story of your country.
13. Build something famous from your country out of Legos, sugar cubes, toothpicks, etc. (ie. Sydney Opera House).
14. Create a model of a typical house in your country.
15. Write a story about your country or tell us a folk tale from your country. Make a book and draw pictures to go you're your original story or folk tale.
16. Make a radio or television story reporting about your country.

**\*\*\*\* Please make sure that your choice is approved by \*\*\*\*  
your teacher and your parents.**
